John Mallee's Northwest Indiana Shockers travel baseball players benefit by being part of a large, growing, and professionally run organization.

Professional Instructor's:

Hand-picked by John Mallee, these instructors will train the managers, coaches and players at all ages so you know your son will be taught the proper way from the beginning of off season training through the end of the season's last game.

Large Indoor Practice Facilities:

"Strength in numbers" - With the growing number of Shockers teams, we are able to secure the best indoor practice facility while maintaining the lowest costs for players families in the area. The Sparta Dome located in Crown Point, IN. is now our location for team practices and professionally run progressive clinics taught by our top-notch instructor's.

Hitting, Pitching and Catching Facilities:

It is very important to stay on top of your game by maintaining and fine tuning your skills throughout the off season. Our facility has two hitting lanes and one pitching/catching lane that can be used weekly with professional instructor's on-site.

Since the Northwest Indiana Shockers Travel Baseball Club is a 501(c)3 non for profit organization, our teams fundraising efforts are much easier than other organizations. Fundraising is not mandatory, but it can greatly reduce or as seen in some cases in the past, even eliminate all player fees. We will continuously strive to keep our costs per player as low as possible. This years cost per player will be $1,850

**Note: Many of our baseball players also play basketball. Typically, basketball players don't practice on Friday's. That is the reason for team practices being on Friday's. Also – The different age levels in basketball will typically practice one - two days per week, Monday – Thursday. Having 3 separate time slots for team hitting, Monday – Thursday, we will do our best to schedule our times so the players have very minimal overlap.*

**At this point we don't expect changes but the times and dates above may vary based on availability of instructors and facilities.*
